JLG BUSINESS LEARNING COLLECTION

The JLG Business Foundation Toolkit

One connected system for launch, records, funding, and growth.

Guide + workbook + knowledge check + 30-day implementation plan

Original educational material prepared for Jackson Legacy Group. First edition, October 2026.

Start here: use the collection as a system

Begin with structure if the business identity, ownership, or obligations are unclear. Use records next to establish explainable financial information. Use funding when a documented business need justifies financing. Use the growth roadmap to select the constraint and manage execution. You do not need to complete every activity before taking a small, responsible next step.

This toolkit bundles the four complete guide-workbooks, their reusable worksheets, and their knowledge checks. This integration manual connects the outputs. It does not replace those books or create a fifth set of legal, tax, or lender rules.

Use the same evidence standard throughout: known fact, source, unresolved question, owner, next action, and review date. Keep sensitive documents in controlled storage and use nicknames in the master register.
